

Roger Gould, M.D. Founder and CEO of Digital Therapy, INC.

Roger Gould, M.D. is a board-certified psychiatrist, psychoanalyst and former Head of Community Psychiatry and Outpatient Psychiatry at UCLA. He is a leading authority on adult development, stress and emotional eating.

In his first book [Transformations](#), Gould presents his view that adult psychological development consists of the “dismantling of the illusions of safety developed in childhood.” Gould’s theory suggests that these illusions are confronted in a time-sensitive sequence as one progresses through the life-cycle. His scientific research was the basis for the hugely popular book "Passages" by Gail Sheehy, which spent three years on the NY Times bestseller list.

Dr. Gould and his team have been creating psycho-educational software for over twenty-five years. The critical thinking process and problem-solving techniques presented in the interactive programs were developed and refined by clinical experience with over 100,000 people and dozens of hospitals and healthcare organizations.

The Smithsonian Institution recognized Dr. Gould as a pioneer in the emerging field of computer-assisted therapy. In 2001 an independent study by Kaiser Permanente and UCLA found that Gould’s method of computer-assisted therapy was “as effective” as traditional therapy.

In 2007, he published a second book, “[Shrink Yourself: Break Free from Emotional Eating Forever.](#)” In both the book and the online program, Gould suggests that the powerlessness people feel over their cravings to eat when they are emotionally upset is a cover-up for a deeper sense of powerlessness in areas, or “layers,” of their lives not directly connected to eating. By examining one’s sense of powerlessness in the areas identified, Gould claims one can end emotional eating and many other forms of uncontrolled behaviors.

His work has been featured on national television (ABC, CBS and FOX) and covered in Time Magazine, The New York Times, Prevention, Psychology Today, Good Housekeeping, Bariatric Times and MedHelp.

Education and Training

- Undergraduate; University of Wisconsin, Madison
High honors
- Northwestern Medical School in Chicago
Alpha Omega Alpha Honor Medical Society
- Psychiatric Training at UCLA included Master's degree in Public Health, 1965

- Board Certified Psychiatrist and Psychoanalyst

Career Highlights

- Honored by the Smithsonian as a pioneer in the use of computers in mental health
- Created the Therapeutic Learning Program
- Created the Mastering My Life Program
- Created the Shrink Yourself online program for emotional eating
- Created the My Virtual Shrink online program
- Author of psychiatric textbook chapter on Adult Development
- Started Interactive Health Systems online
- Harvard Business Review: Men at Mid-Life
- Cigna Health Plan: Computer Assisted Therapy Program
- Consultant to Walter Reed Hospital
- Consultant to Johnson and Johnson
- Consultant to Telesis
- Consultant to U. S. post office
- Consultant to Citibank
- Principal in Bingham Foundation Study of Adult Development and Self Help Psychotherapy
- Consultant for Department of Defense
- Jury selection in Pentagon papers case
- Head of outpatient and community Psychiatry, UCLA
- Associate Clinical Professor of Psychiatry, UCLA
- U.S. Army Psychiatrist, Ft. Polk, LA
- Project with Erik Erikson on Love and Work

Books

- Shrink Yourself, John Wiley and Sons Inc.
- Transformations: Growth and Change in Adult Life, Simon and Schuster
